

BABEDINO Token and Liquidity Lock Schedule

Lovely Baby Dino

Verified project disclosure as of 25 October 2026

Purpose. This document records the current BABEDINO plain-token locks and BABEDINO/USDT PancakeSwap V2 liquidity-provider locks published through PinkSale. It separates token-supply restrictions from LP-token custody so that each record can be independently verified.

Current Verified Position

Total token supply	**1,000,000,000 BABEDINO**
Plain tokens currently locked	**400,000,000 BABEDINO 40 percent**
Circulation and ecosystem allocation	**600,000,000 BABEDINO 60 percent**
Wallet-owned active LP locks	**455,000 Cake-LP**
Contract-owned expired LP record	40,000 Cake-LP unwithdrawn
Total LP shown by PinkSale	495,000 Cake-LP

Project References

Token contract 0x1CE070f548AC67825e2AAd4368Af9A78ce0C6080

BABEDINO USDT LP contract 0xc85413730c8158C4cca2051d7d6Ed9deDCcD2306

Project documents https://github.com/babedino/BABEDINO/tree/main/docs

Interpretation. Plain-token locks restrict BABEDINO balances. LP locks restrict the Cake-LP ownership tokens that represent a proportional claim on the BABEDINO/USDT pool. The two totals are different measurements and must not be added together.

BABEDINO Plain Token Locks

PinkSale currently reports 400,000,000 BABEDINO locked across seven records. All records are owned by the project lock wallet and use simple time locks without vesting.

No	Locked BABEDINO	Unlock date UTC	PinkSale record
1	**50,000,000**	2030-06-25 20:00	Record 1321783
2	**50,000,000**	2031-06-25 20:00	Record 1321782
3	**50,000,000**	2032-06-25 20:00	Record 2086834
4	**50,000,000**	2033-06-25 20:00	Record 2086837
5	**50,000,000**	2034-06-25 20:00	Record 2086839
6	**50,000,000**	2035-06-25 20:00	Record 2086923
7	**100,000,000**	2037-06-25 20:54	Record 1281736
Total plain tokens locked		**400,000,000 BABEDINO**

Supply Classification

- **Locked supply.** 400,000,000 BABEDINO is restricted by the PinkSale records shown above.
- **Circulation and ecosystem allocation.** 600,000,000 BABEDINO is allocated outside these plain-token locks. Actual public circulation may be lower where balances remain undistributed or controlled by project wallets.
- **No double counting.** BABEDINO deposited in a PancakeSwap pool remains part of the circulation and ecosystem allocation; LP-token locks are reported separately on the following page.

BABEDINO USDT Liquidity Provider Locks

The PancakeSwap V2 BABEDINO/USDT pair is represented by Cake-LP tokens. PinkSale currently shows 495,000 Cake-LP across seven records. Of this amount, 455,000 Cake-LP is held in active wallet-owned time locks. A separate 40,000 Cake-LP record is expired, unwithdrawn and owned by the BABEDINO token contract.

No	Cake-LP	Unlock date UTC	Status	PinkSale record
1	**40,000**	2025-02-25 15:14	Expired, contract-owned	Record 1281916
2	**5,000**	2027-09-25 21:51	Active	Record 1281744
3	**20,000**	2028-04-22 15:48	Active	Record 1383863
4	**100,000**	2029-03-25 20:10	Active	Record 1321788
5	**50,000**	2031-03-25 20:12	Active	Record 1321789
6	**100,000**	2033-03-25 23:03	Active	Record 1281751
7	**180,000**	2036-03-25 22:19	Active	Record 1325095
Wallet-owned active LP	**455,000 Cake-LP**			
PinkSale listed total	**495,000 Cake-LP**

Contract Owned 40000 Cake LP Record

Record 1281916. The 40,000 Cake-LP record reached its stated unlock time on 25 February 2025, but PinkSale still reports an unlocked amount of zero. Its designated owner is the BABEDINO token contract rather than the project lock wallet. The underlying BABEDINO and USDT were not automatically returned to a wallet when the date passed; they remain in the PancakeSwap pool while the LP token remains held by PinkLock.

Operational status. A passed unlock date only permits the designated owner to request withdrawal; it does not itself remove liquidity. Because a token contract cannot sign a wallet transaction and no project-wallet withdrawal route has been identified in the verified BABEDINO contract interface, this position is treated as operationally inaccessible. It is not included in the 455,000 Cake-LP active time-lock total.

Verification and Interpretation Notes

- **Current status.** Amounts and dates reflect the public PinkSale records verified on 25 October 2026.
- **Market values.** Any dollar value displayed by PinkSale changes with pool reserves and token prices and is not a fixed locked amount.
- **Liquidity risk.** A liquidity lock restricts withdrawal of the referenced LP position but does not guarantee price, trading volume, market depth, execution quality or project success.
- **Independent review.** Users should confirm each record through the direct PinkSale links and compare the full token and pair contract addresses before interacting.
